WHAT IS BLOCKCHAIN TECHNOLOGY?

Blockchain technology is an advanced database mechanism that allows transparent information sharing within a business network. A blockchain database stores data in blocks that are linked together in a chain.

The data is chronologically consistent because you cannot delete or modify the chain without consensus from the network. As a result, you can use blockchain technology to create an unalterable or immutable ledger for tracking orders, payments, accounts,

- DEX wallet
- Meta Fund Pay
- Meta Fund Swap

What is **NFT** ?

NFT

NFT or non-fungible tokens are digital assets based on block chain technology. Anything can become an NFT a piece of art, sports memorabilia, or even a tweet.

An NFT is a unit of data, stored on a type of digital ledger called a blockchain, which can be sold and traded. The NFT can be associated with a particular digital or physical asset such as images, art, music, and sports highlights and may confer licensing rights to use the asset for a specified purpose.

About Us ...

Meta fund is a financial technology company that specializes in providing investment and advisory services in the field of blockchain and cryptocurrency.

Our mission is to empower individuals and businesses to navigate the complex world of digital assets and harness the potential of blockchain technology.

A Meta fund, we recognize the transformative power of block chain technology and its impact on various industries, including finance, supply chain management, healthcare, and more.

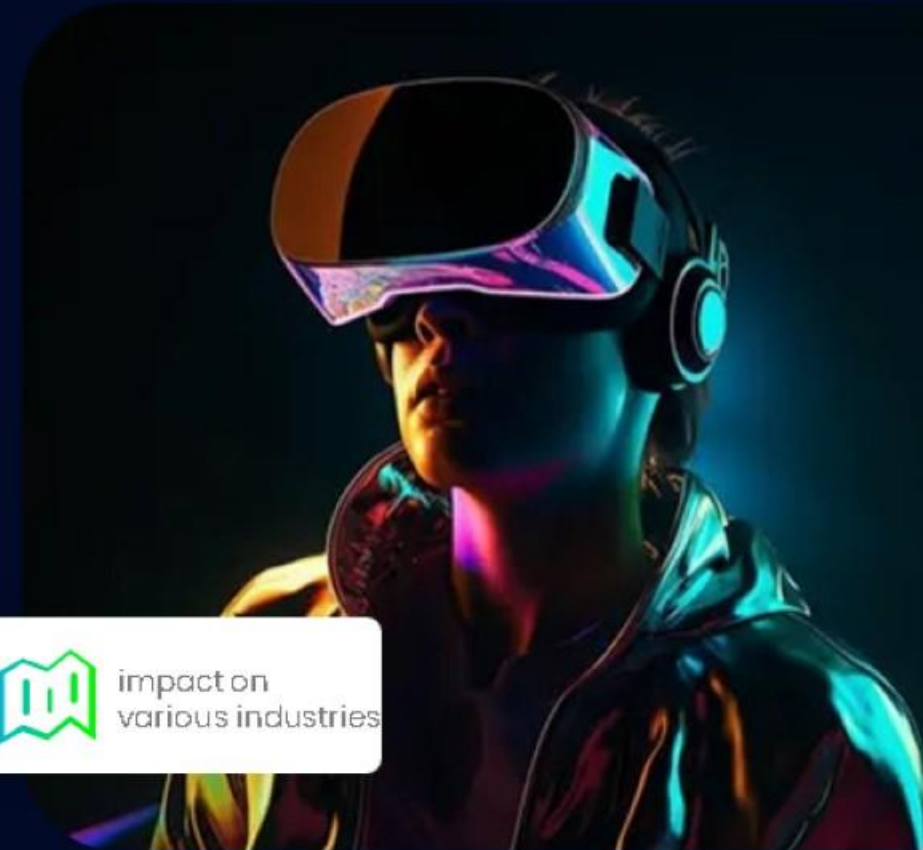

We aim to bridge the gap between traditional finance and the emerging world of cryptocurrencies, offering tailored solutions that cater to the unique needs of our clients
