Win500X

Games have taken the world by storm. If you consider that 40 percent of the population worldwide plays online games, then the number is all the more impressive! Just imagine how many people already play games on smartphones, tablets, and social media.

Global Overview Of Fantasy Sports ...

The rise is mainly due to the increasing youth population, growth in digital infrastructure, availability of affordable smartphones, increasing popularity of players in various sports, growing investment in internet infrastructure, and the launch of fantasy sports applications.

The global fantasy sports market is expected to grow from US \$ 20.36 billion in 2020 to US \$ 22.31 billion in 2021 at a compound annual growth rate (CAGR) of 9.5 percent.
