BILLION DOLLAR COIN

Why We Will be The Best In Crypto?

01

SCALABILITY

Scalability refers to the ability of a blockchain to handle an increasing volume of transactions. Efficiency in transaction speed and the cost of recording and validating transactions are paramount to become a widespread digital payment system.

02

SECURITY

Security refers to the rigor associated with verifying transactions on the blockchain. The degree of rigor determines the ability of the blockchain to function as expected while defending itself from fraud, cyberattacks, hackers, bugs and other malicious ware.

03

STABLE COINS

Stable coins such as Tether, USD Coin and Dai are digital currencies whose value is explicitly linked to another asset. Many of the most prominent stable coins are linked to a fiat currency. Regardless of whether a stable coin is backed by fiat or digital assets, the reserve mechanisms are not regulated or required to be
